Danish Chemical Society

15th Aarhus Winter Meeting

TRENDS IN MODERN CHEMISTRY

January 25, 2019

Department of Chemistry
Aarhus University
Langelandsgade 140
DK-8000 Aarhus C.

Programme:

11.00	Registration
11.30	Welcome
11.35	Professor **Kendall N. Houk**, Department of Chemistry and Biochemistry, University of California, Los Angeles, USA. *"Dynamics of Pericyclic Reactions".*
12.20	Lunch (optional)
13.15	Professor **Helmut Cölfen**, Department of Chemistry, University of Konstanz, Germany. *"Polymers and Crystals - A Happy Marriage".*
14.00	Professor **Søren Kegnæs**, Department of Chemistry, Technical University of Denmark, Kgs. Lyngby, DK. *"Synthesis, Characterization and Application of Nanostructured Catalysts".*
14.45	Coffee break
15.15	Professor **Paul Knochel**, Ludwig Maximilians-University of Munich, Germany. *"Polyfunctional Organometallics for Organic Synthesis".*
16.00	Associate Professor **Mogens Christensen**, Department Chemistry, Aarhus University, DK. *"Magnets and Neutrons".*
16.45	Refreshments
17.00	Senior Research Scientist **Katrine E. Nielsen**, Palsgaard, Juelsminde, Denmark. *"Physical Chemical Aspects of Emulsifier Technology".*
18.00	Dinner (optional) Canteen

aalborgportland

LEGO System A/S

GRUNDFOS

Online registration at www.chem.au.dk/Wintermeeting
Deadline for registration: January 17, 2019

Local organizers: Jørgen Skibsted (jskib@chem.au.dk), Bo Brummerstedt Iversen (bo@chem.au.dk)
