

The Nordic Society for Aerosol Research

NOSA

2016 Symposium

4th-6th April 2016

Department of Chemistry, Aarhus University, Denmark

The NOSA Symposium brings together members from all the research fields of aerosol science - not only from the Nordic countries but throughout the world.

The 2016 NOSA symposium will be held in Aarhus, Denmark. The symposium will include topics such as aerosol formation and growth, solid aerosol particles, chemical composition of aerosol, air pollution and health, and much more.

Abstract deadline: 1 February, 2016

Registration deadline: 14 March, 2016

Keynote speakers:

Prof. Markku Kulmala, Helsinki University: "*Aerosol formation and growth*"

Prof. Dr. Bernadett Weinzierl, University of Vienna: "*Long-range transport of aerosols: new insights from airborne measurements and model simulations*"

Assoc. Prof. Jason Surratt, University of North Carolina at Chapel Hill: "*Multiphase Chemistry Promotes Isoprene-derived Secondary Organic Aerosol Formation: Implications for Air Quality, Climate and Public Health*"

Prof. Michael Brauer, The University of British Columbia: "*A global perspective on particulate matter air pollution and health*"
